NHS Science: Walking Field Trip

Parent Permission Slip: **PLEASE RETURN BY FRIDAY, 8/30**

APES is a class where we go outside almost every week until the weather becomes too cold in November. We will be exploring our campus as well as doing water quality tests at Mill Brook (behind St. Mary’s) and Mill Pond. Please read over the “performing work in the field” portion of this slip and then sign if you give permission for your student to attend these important “walking” field trips. If you have any questions, please do not hesitate to contact me.

I give permission for my student

________________________________________________________________________  (student name)

to participate in these “walking” field trips.

________________________________________________________________________(parent/guardian signature)

Performing work in the field:

1. Take precautions to prevent mosquito and tick bites as well as sunburn by wearing long sleeves and pants and using insect repellent and/or sunblock, if you desire.
2. Additionally, perform a tick check in the evening after doing field work.
3. Be aware of field hazards such as poison ivy and stinging insects. Alert the teacher if you notice any of these.

Thank you,

Mrs. Butryman (jbutryman@npsct.org; 860-666-5611 x1314)
